

## 2026 NACE Internship & Co-op Survey

### INSTRUCTIONS

This survey contains questions on both internship and co-op hiring practices. **To reduce the number of questions and text you are shown, the survey employs logic to ask questions that pertain only to your situation. As a result, we request your response to a select few questions on which much of the logic relies.**

Please note:

- This survey is meant to capture data on college-level internship and co-op programs. Respond with data on your college-level programs only.
- NACE defines the graduating class of 2025-26 as those students graduating between July 1, 2025 and June 30, 2026.
- Please provide as much of the requested data as possible. If your plans aren't locked in yet, please include your best estimates.

For the purposes of this survey, the following definitions should be used to distinguish between Internship and Cooperative education programs (Co-ops).

**Internship:** Internships are typically one-time work or service experiences related to the student's major or career goal. The internship plan generally involves students working, possibly virtually, in professional settings under the supervision and monitoring of practicing professionals. Internships can be paid or unpaid and the student may or may not receive academic credit for performing the internship.

**Cooperative education:** Cooperative education provides students with multiple periods of work in which the work is related to the student's major or career goal. The typical program plan is for students to alternate terms of full-time classroom study with terms of full-time, discipline-related employment. Since program participation involves multiple work terms, the typical participant will work three or four work terms, thus gaining a year or more of career-related work experience before graduation. Co-op positions are generally paid and the vast majority involve some form of academic credit.

## Section 4: Conversion Rates

### Conversion Rates for Interns/Co-ops Overall

Among the total students hired for intern/co-op positions between July 1, 2024 and June 30, 2025:

Please note:

- For the purposes of calculating conversion rates, interns/co-ops who are "eligible" for converting to full-time (FT) employees are those who are on track to graduate into the workforce from their respective program by June 30, 2026.
- Interns/co-ops who "accepted" a full-time (FT) offer of employment includes ALL acceptances. If the intern/co-op reneged on the acceptance later, they still accepted the offer and should be counted in Box C.

- For example, if there were 100 eligible interns/co-ops, offers were made to 80, 40 accepted, and 10 of the 40 reneged, then you would enter 100 into Box A, 80 into Box B, 40 into Box C, and 10 into Box D.

---

A. How many were **eligible** to receive an offer of full-time employment? (e.g., interns/co-ops graduating into the job market)

B. How many **received** an offer? (This number must be EQUAL TO OR LESS THAN the number in Box A above.)

C. How many **accepted** the offer? (This number must be EQUAL TO OR LESS THAN the number in Box B above.)

D. How many of those accepted offers were **reneged** upon? (This number must be EQUAL TO OR LESS THAN the number in Box C above.)

### Conversion Rates for Interns and Co-ops by Gender

What is the TOTAL NUMBER of interns/co-ops in your 2024-25 cohort from each of the following gender groups that were eligible to receive a full-time offer, that received an offer, and that accepted it?

**If you do not track conversions by gender, please skip through this section**

PLEASE NOTE:

- For each row, the number of eligible interns/co-ops should be equal or greater than the number who received an offer, which should be equal or greater than the number who accepted an offer.
- "Eligible" is defined as a student who was on track to graduate into the workforce from their respective program by June 30, 2026.
- Interns/co-ops who "accepted" a full-time (FT) offer of employment includes ALL acceptances. If the intern/co-op reneged on the acceptance later, they still accepted the offer and should be counted in Box C.

## Section 9: Intern wages

This section asks you to indicate your typical hourly wage rate for students hired for INTERNSHIP positions based on:

1. Their field of study and
2. The degree/year level **at which they were enrolled on their first day of work**. For summer interns, consider their rising status (i.e., if a student is entering their senior year in September, their previous summer internship would be categorized as "senior")
3. NACE categorizes **summer** internships/co-ops in the following manner: Those students who completed a degree level and then participate in a summer internship/co-op would be categorized as the degree level they are going into (i.e., rising senior). For advanced degrees, if a student is not enrolled in an advanced degree program (i.e., a senior is not going into a master's program), and particularly have not completed their degree requirements, categorize them in the previous degree level (a senior).
